

WILSON TRANSFORMERS HAVE DEVELOPED AND IMPLEMENTED EFFECTIVE SYSTEMS AROUND SEQUENCE PLANNING AND SERVANT LEADERSHIP ACROSS THE WHOLE ORGANISATION.

Combined with systems that facilitate continuous flow in a high mix, low volume value stream.

This visit will provide the opportunity to see these systems in place and meet the Wilson Transformers Team.

HOST SITE OVERVIEW

Established in 1933 with a proud history, Wilson Transformer Company is a leading specialist in the delivery of transformer solutions.

In a changing world, organisations are increasingly turning to our specialist skills to meet their technical, safety and environmental challenges.

From our manufacturing base in Australia we deliver solutions to a wide variety of industries and customers around the world.

These include electricity generators, renewable energy, transmission and distribution organisations as well as a variety of heavy and light industrial users.

We also meet the often complex needs of the mining, oil and gas sectors.
